

# Into the Light

Solange Legal

**Verse 1:** When it's dark and I fall to my knees  
He is there and He beckons to me  
When I'm lost and I feel so afraid  
"I am here now," I hear Him say

**Verse 2:** When I think I have taken control  
He is patient and there to console  
Though I constantly push Him away  
"Take my hand now," I hear Him say

**Chorus:** Into the light I come, Into the light I run  
For the Lord has cleansed me and healed all my pain  
Into the light I come, Hallelujah  
For the Lord works miracles again

**Verse 3:** When I come to Him tired and alone  
He is smiling and welcomes me home  
In my heart I know He is the way  
"Stay with me now," I hear Him say

**Bridge:** Lead the way, lead the way  
Though I stumble to the ground  
When I'm lost, make me found

Lead the way, lead the way  
Take my life in your hands  
When I push, help me stand

Lead the way, lead the way  
I am nothing without you  
When I'm tired, make me new
